Practical 4 – INTRODUCTION AND CONTRIBUTING TO WIKIPEDIA

a) What is Wikipedia?

Ans- Wikipedia is an online free content encyclopedia project helping to create a world in which everyone can freely share in the sum of all knowledge. The project is supported by the Wikimedia Foundation and based on a model of freely editable content. The name "Wikipedia" is a blending of the words *wiki* (a technology for creating collaborative websites, from the Hawaiian word *wiki*, meaning "quick") and *encyclopedia*. Wikipedia's articles provide links designed to guide the user to related pages with additional information.

Wikipedia is written collaboratively by largely anonymous volunteers. Anyone with Internet access can write and make changes to Wikipedia articles, except in limited cases where editing is restricted to prevent further disruption or vandalism.

b) Steps to Create Account on Wikipedia.

Step 1 - Search Wikipedia on your browser.   Search Wikipedia

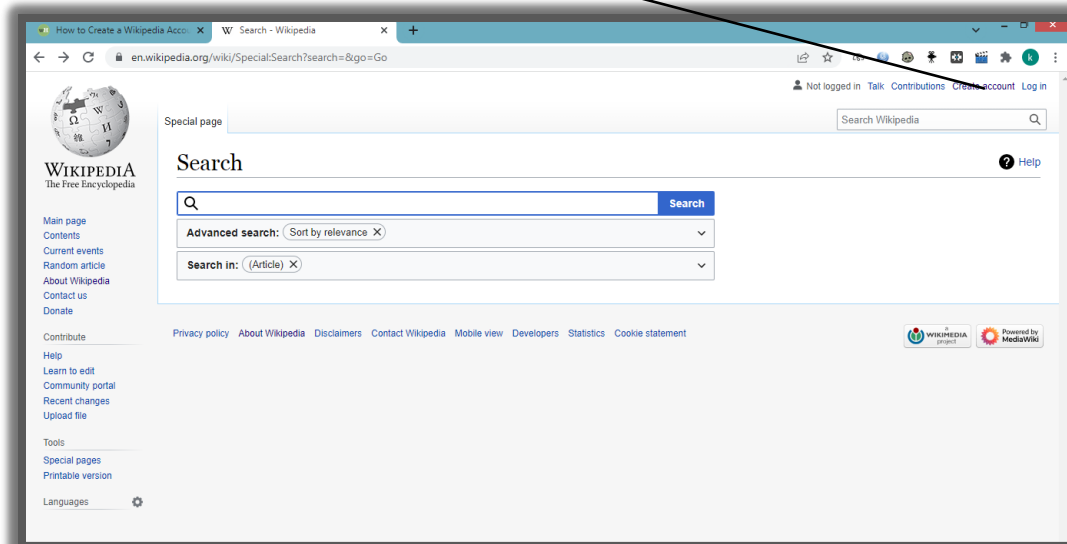

Step 2 - Select your language and click on search.   choose language

○ Commercial product (including software)
○ Geography, places, and buildings
○ History or social science
○ Science, mathematics, or engineering
● Other

Short description

MY SELF

Try not to exceed 40 characters

WikiProject classification tags

My self

Adding the 1–4 most applicable WikiProjects is plenty. For example, if you add the Physics tag, you do not need to also add the Science tag.

Topic classifiers

Start typing to search for topi

Pick the topic areas that are relevant

Submit

If you are not sure about what to enter in a field, you can skip it. If you need further help, you can ask at the AfC help desk or get live help.
